To Ms. Jelayne Dray, East Liverpool Health Commissioner

Dear Ms. Dray,

Thank you for communicating with me about our planned adult health study in your town. We are looking forward to meeting you and your board in person on September 15 and thank you for putting us on the program.

I am fortunate to not only have an excellent team of exposure and health scientists working with me on our East Liverpool health study, funded by the US EPA, which will be similar to the study of Marietta and Mt. Vernon. As you know I have collaborators from the ODH, ATSDR and EPA and Mr. Greg Stein and I have prepared some Fact sheets you will be able to send to your Health Board Members. We look forward to having the opportunity to present to your board and receiving your thoughts on our efforts.

Thank you for your support and assistance. We hope very much our study will be of benefit to you and your residents.

Thank you,

Rosemarie L. Bowler, Ph.D.
